

## BMEXPO CHINA 2010

4<sup>th</sup> China International Building Material Technology & Equipment Exhibition

## CBMD 2010

4<sup>th</sup> China Building Materials Development Forum

# REVIEW

### Large-scale and Professional Platform to Boost Your Business

The fabulous city of Beijing was the setting for the 4<sup>th</sup> China International Building Material Technology & Equipment Exhibition and Conference, held on June 3-5 2010. About 15,000 visitors and delegates from 20 countries around the world attended the 3 days of exhibition and networking, as well as a series of high-level and memorable forums. The main themes of the event included important advances in manufacturing technology and the state of the building materials industry worldwide; the highlight of the theme is “energy-saving and emission reduction” of the building material industry. The date and venue for the 5<sup>th</sup> China International Building Material Technology & Equipment Exhibition and Conference (BMEXPO CHINA 2010 & CBMD 2010) will be held on **12-14 May 2011**, still in **BEIJING (CIEC)**.

### Congratulations on the exhibitions successfully held concurrently, which are:

- ✓ 2010 China Bulk Cement, Ready-mixed Concrete, Ready-mixed Mortar Technology, Equipment and Products Exhibition
- ✓ CONCRETETECH CHINA 2010
- ✓ 2010 China International Modern Building Construction Technology, Template and Scaffolding Exhibition

# Grand Opening Ceremony

## Government Officials Attended the Ceremony

Mr. Xie Zhenhua, Vice Director of National Development and Reform Commission P.R.C, delivered an important speech at the opening ceremony.

Ms. Qiu Hong, assistant minister of Ministry of Commerce P.R.C, made a fabulous speech at the opening ceremony.

Mr. Zhang Renwei, President of China Building Materials Federation, made a splendid speech at the opening ceremony.

Mr. Yao Bing, President of China Construction Metal Structure Association, made an inspiring speech at the opening ceremony.

Ms. Sheng Meixin, director of organizing committee of China National Building Materials Exhibition and Trade Center, presided over the opening ceremony.

■ A Must-see Exhibition, a Perfect Showcase Platform

**Energy efficiency in manufacture, recyclability, product optimisation  
And installation advances.**

**Exhibit profile:**

- Brick, block and wallboards, including techniques and equipment for producing Clay, Autoclave, Aerated, Sintering products, etc..
- Insulation: Mineral wool, polyurethane, cellulose, fibreglass, polystyrene and other thermal insulation materials and systems.
- Advanced wall construction systems
- Energy-saving integrated housing
- Mortar
- Concrete
- Cement
- Publishers, trade associations, organizations

**Photo Gallery**

■ High-level Forums, a Perfect Networking Platform

**Communication, Cooperation, Development**

**I. China Building Materials Development Conference 2010 (CBMD 2010)**

**Main topics:**

- ✧ Accelerate the step of China's New Rural Construction, and promote the development of low-carbon economy
- ✧ Make good use of arable land in the China's New Rural Construction
- ✧ Experience on Energy efficient of buildings in rural areas
- ✧ Step up the optimization and upgrading of China's industrial structure to create rural market
- ✧ Energy-saving and emission reduction is the aim of Haiyuan autoclaved machines and technology

**II. Conference on Utilization of solid wastes in building material industry & Thermal Power Plant Comprehensive Utilization of Fly Ash & Gypsum**

**Main topics:**

- ✧ Development trend of China's comprehensive utilization on fly ash
- ✧ Introduction of comprehensive utilization on fly ash of Japan

- ✧ Characteristics and technical method choice on China's comprehensive utilization of fly ash
- ✧ From the desulfurization gypsum plaster to alpha gypsum-technology innovation to value-added transformation
- ✧ (KDQ3800、KDQ1800) —Keda lead the development of wall brick press
- ✧ Research on desulphurization gypsum calcine-free wall materials
- ✧ Research on application examples of desulphurization gypsum products

### III. Conference on Technology & Technological Application of Building Bricks for Sintering

#### Main topics:

- ✧ Development and application of Energy-saving sintering shale hollow brick
- ✧ Automatic control and high yield & energy-saving of brick firing technology
- ✧ Technology advantage and feature of exterior wall shale brick insulation
- ✧ Ganguer sintered brick technology and evaluation
- ✧ Ideas and opinions on China's brick industry development

### iv. Conference on Industrialization of Housing and Structure and Insulation Integration of Building

#### Main topics:

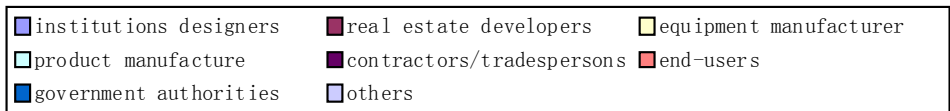

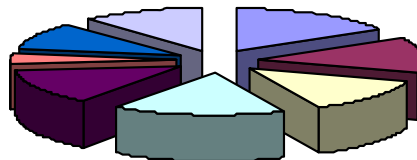

- ✧ Summary of national housing industrialization policy
- ✧ Safety analysis on external thermal insulation composite wall tile and paste system
- ✧ Application of single material external wall insulation system in the new rural housing buildings

- ◇ Performance and application of ecological multifunctional dispersed polymer powder
- ◇ UV-curable fluorocarbon coating system Introduction of exterior wall decorative plate
- ◇ Wooden fiberboard to build a low-carbon and environmental life
